It is too fresh in the minds of the people of this state to need repeating here, but merely to keep the records straight, I desire to metion that in straight, I desire to metion that in the campaign of 1906, when I was a candidate for the office of governor, I was fearfully, unjustly and maliciously; assaulted by certain newspapers, talebearers and others, without cause or justification.

was not, as Mr. Tillman saw it.

So far as I am concerned, I am not swinging on to anybody's coat-tails. In 1890 I was a reformer, but I did not run on the coat-tails of any man. In fact, I had run for the Legislature in Newberry county in 1888, and received a majority of the votes cast. However, there were three who received a higher vote than myself, and as the coat of the ed a higher vote than myself, and as there were only three places in the Legislature, I had to wait until 1890, an equality with the white men, and lanswer, and to whom I answer for has on every possible occasion condemned white men, by calling them acts, as to my morality and my primurderers and outlaws and hoodlums, vate life, I believe that there is a God; who have dared to stand in the open I love Him, I honor Him, and to Him in defense of the virtue of the white will I answer, and upon Him I depend womanhood of our State—our mothers for my health, my strength, my sucand sisters. That is the man with his associates, with his independentism, the world to come. I do not propose to make this campaign hanging upon the coat-tails of any man, but standing firmly and squarely as a Demo-crat—as a Jeffersonian Democrat. In this connection, I do not care

## POURED WHISKEY INTO THE FIRE

When Visited By the Officers Woman Threw Tempting Drinks Into Flames

(From Sundays Dally) Anderson county officers have had reason to believe for some time that a woman by the name of Hali was sell. ing House. Yesterday the county de-tective secured a search warrant giving hquar. I esterday the county detective secured a search warrant giving him authority to search the premises for whisky and he started for her
hime, near one of the mill villages.
Evidently the woman had heard the
approach of the automobile, because
when the officer tried to get in he
found the dook locked although he
could hear sweeping going on inside.
He finally gained admission and found
that the woman had thrown all the
whisky she had on the fire when she
heard the officer approaching. Some
of it had not burned rapidly enough
and had tricked out on the floor in
front of the fire place, while some of
it had spattered all over the woman's
appropriate shoes. There was nothing left for the officers to do, except
to ware her and best a retreat.

## ANDERSON TEACHERS HELD LAST MEETING

Miss Hite Was Unable to Attend But Splendid Address Was

Heard on Shakespeare

(From Sundays Daily) The Anderson county school teachers gathered at the First Baptist church in this city yesterday for the last monthly meeting of the associa-tion for this scholastic year. The school terms will all come to an end next month and theer will be no other opportunity for another meeting. The attendance yesterday was considerably larged than usual, being due to the fact that this wast the last meeting. Considerable disappointment was oc-

was unable to be present for her ad-dress, which was one of the decided features of the program. Miss Hite was detained in Louisville, Ky., by other school engagements and could not be in attendance but those who had yesterday's meeting in charge feel that the teachers present gained fully as much knowledge by reason of the address replacing Miss Hite's place. Dr. James P. Kinard, the new president of Anderson college, kindly con-sented to speak to the teachers and chose for his subject "Shakespeare." Dr. Kinard made a profound impression upon the audience, many of whom had never heard him speak before. He acquitted himself in a splendid

namer.

The association yesterday passed resolutions thanking the officials of the Baptist church for their kindness, the county board for its assistance and the officers of the teachers' associa tion.

Resolutions were also unanimously

adopted thanking those who made the Anderson county field day possible. Delightful solos by Mrs. C. H. Spearman and Mrs. C. D. Earle were two of the features of the day, following which Rev. D. Witherspoon Dodge delivered the invocation and the splendid buncheon was annead This luncheon was spread. This repast was furnished by the county board and served by the Rural School Improve-ment Association of the Lebanon school. It was a tasty affair through-out and every minute of this part of the program was enjoyed.

On the whole meeting held yes-terday was one of the most pleasant that the county association has over known and it was a fitting climax to a very successful year of school work.

## 150% to 200% FERTILIZER PROFIT FACTS No. 13

## Second and Third Applications

Accurately kept records have demonstrated for every \$5.00 invested in fertilizers there is a return of from \$12.50 to \$15.00 in increased yields of farm crops.

A profit of from 150% to 200% on every dollar invested in fer-

It is an established fact that larger returns can be secured for every dollar invested in this way than any other.

The time for putting fertilizers down before planting, is past. The only way you can secure the maximum yield is by the intercultural method of SECOND and THIRD APPLICA-TIONS of Fertilizers, after the crop is planted.

The danger of the plant food leaching out and becoming lost is lessened by making light and frequent applications of fertilizers to the growing crops and in this way almost every pound

A field thought too poor to make a good crop, is made to double its yield through the liberal use of fertilizer.

The field considered fertile enough without fertilizer is made to pay larger dividends when fertilizer is used, and good fields make better use of heavy applications of fertilizers than any others.

The SECOND and THIRD APPLICATIONS of Fertilizers must be as carefully planned as the first.

These intercultural (SECOND and THIRD) APPLICATIONS must immediately precede cultivation.

They must be put on the level, in front of the cultivator and mixed with the soil if the greatest good is to be secured from

Garden vegetables and other truck crops require frequent and heavy applications of fertilizers to produce paying crops.

Experience has taught that the greatest yields of cotton and corn are made through the use of SECOND and THIRD AP-PLICATIONS of Fertilizers.
